

To our customers

Hannover, 2024-01-23

REACH-Declaration

(Regulation (EC) no 1907/2006 of the European Parliament and of the Council on *Registration, Evaluation, Authorisation and Restriction of Chemicals*)

The company esd electronics gmbh is a manufacturer of electronic products and thus - in the sense of REACH - esd electronics is a producer of articles. Substances and mixtures as defined by REACH are applied in our manufacturing processes. Regarding substances and mixtures esd electronics acts as a so-called 'downstream user'.

The products we supply to our customers are solely "articles" in the sense of the REACH regulation. Moreover, under normal or reasonably foreseeable conditions of use, the articles we supply to our customers shall not release any substances.

Registration

esd electronics is not affected by the duty of registration, because we are manufacturing articles in the sense of REACH that do not release any substances.

Substances of Very High Concern - SVHC

If the allowed threshold limit is exceeded, REACH requires the duty to communicate information to the recipient on substances of very high concern, which are given in the SVHC list (candidate list). The current release of the candidate list dated **2024-01-23** with **240** substances can be downloaded from the European Chemicals Agency (ECHA) web page: <https://echa.europa.eu/candidate-list-table>

We fulfill our obligations according to REACH article 33 and will inform our customers immediately, if articles delivered by us contain substances in a concentration above 0,1 % weight by weight (w/w) that are listed as substances of very high concern by the European Chemicals Agency (ECHA).

If an article contains SVHC substances, we specify the SVHC substances in our quotation, the order confirmation and in the delivery note.

Substances of REACH Annex XIV (List of substances subject to authorisation)

Based on the candidate list the EU decides, which substances of very high concern will be subject of authorisation. These substances are published in Annex XIV:

<https://echa.europa.eu/authorisation-list>

If our articles contain substances, which are listed in Annex XIV and require authorisation, we will, in cooperation with our suppliers, strive for a substitution of equal quality or for an authorisation regarding the specific use. Our articles do not contain substances of the actual relevant version of Annex XIV.

Substance Restrictions according to Annex XVII (Restriction on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles)

<https://echa.europa.eu/substances-restricted-under-reach>

Regarding to the restrictions of REACH Annex XVII we inform you, that our articles do not contain any listed substance above the allowed threshold limit and that we comply with the given restrictions.

You will find further information on REACH at <https://echa.europa.eu>
